- Bags with paper liner
- Boxbags

Bags for many different uses

The market often demands quick delivery of large amounts of bags. Zakkencentrale can deliver large quantities of bags (printed or unprinted) quickly and all over the world due to a stock of over 30 million bags. The bags are very suitable for packing of cereals, fertilizer, sugar or animal feed.

Zakkencentrale supplies any size of 25 – 50 kg bags in jute, cotton, PP or mixed woven.

Zakkencentrale's print shop has a capacity of over 400,000 bags per day.

Zakkencentrale has more than 30 million bags in stock.

25 – 50 kg bags with liner

Some products need extra protection. An extra polypropylene, polyethylene or paper liner can provide this extra protection. The bag can also be laminated.
