

...Your promise, our packaging

EXIM Big Bag®

The universal FIBC for the building and garden sector

The EXIM FIBC is multi-applicable and specially designed for usage in the building, sand, gravel and garden industry for transportation and storage of sand, gravel, earth, stones, garden and building waste, potting compost and wood for the fireplace.

EXIM FIBC: also for garden waste and pruned wood

Large amounts of garden waste? A mountain of autumn leaves? This can be difficult to dispose of, but the EXIM big bag knows how to handle it!

EXIM FIBC

- Made from strong woven polypropylene
- Available in several sizes
- Standard models available from stock
- Every specification available on request
- If required available with your company name and logo
- No costs for printing plates from 500 pieces onwards

EXIM 4-loop FIBCs can be moved by forklift truck.

EXIM FIBCs are an economically attractive solution for transport and storage of sand, gravel, etc.

The FIBC is also very suitable for the temporary storage and transport of building waste. Bricks, pieces of concrete, wood, the Big Bag can take it all.

With a special tool the EXIM FIBC can be filled quickly.

Big Bag® for transport of smaller quantities

The FIBC is mainly suitable for delivery on the spot of smaller quantities of sand, earth, gravel or stones. It is also ideal for the disposal of smaller quantities of (building) waste*.

* Asbestos waste needs to be packed in special asbestos packaging.

...Your promise, our packaging

EXIM supplies FIBCs in many types and varieties:

1-, 2- or 4-loop, with or without filling- and/or discharging spout, with or without liner, etc. EXIM also supplies flexible silos and container liners and woven plastic film like geo-textile.

Special type

The EXIM FIBC is a special variety of the well-known FIBC and stands out because of its good quality and price. The FIBC is made from strong woven polypropylene and can be filled quickly through existing or specially designed filling equipment.

Strong!

EXIM has all production facilities to enable a quick delivery of a lasting and well priced FIBC!
